## Grants

### *Active and Recent Grants*

#### Health Inequalities and Justice

Sponsor: UNC College of Arts and Sciences Grant for Interdisciplinary Initiatives  
Fall 2013

Grant to support a cross-campus conference on interdisciplinary approaches to health inequalities and justice.

Role: Conference co-organizer

#### Virtue Ethics and Animal Research

Sponsor: Messerli Foundation, Switzerland  
Fall 2013

Travel grant to support collaborative efforts with the Institute of Biomedical Ethics at the University of Zurich and the Messerli-Research Institute at the University of Veterinary Medicine Vienna in the areas of virtue ethics and animal research.

#### Factors Affecting Healthy Volunteers’ Long-Term Participation in Clinical Trials

Sponsor: NIH National Institute of General Medical Sciences  
9/05/12 - 5/31/17

This project investigates healthy volunteers’ patterns of participation in Phase I clinical trials, with particular attention to the differences among minority groups. This longitudinal study focuses on healthy volunteers’ perceptions of the risks and benefits of trial participation and their decision-making processes surrounding enrollment in those studies over time.

Role: Co-investigator

Principal Investigator: Jill Fisher

## North Carolina Translational and Clinical Sciences (TraCS) Institute: Research Ethics Core

Sponsor: NIH National Center for Research Resources  
9/1/2008 - 8/31/2013

Part of the Clinical and Translational Science Awards consortium, the TraCS Institute will transform the way research is performed in North Carolina by partnering with communities to more rapidly and efficiently "translate" scientific discoveries into improvements in the health of citizens. The Research Ethics Core focuses on bioethics curriculum at UNC-Chapel Hill, research ethics consultation, and empirical projects in research ethics.

Role: Core Faculty

Core Director: Eric Juengst

Principal Investigator: Marschall Runge

## Center for Excellence on ELSI Research: Center for Genomics and Society

Sponsor: NIH National Human Genetics Research Institute  
10/1/2007 - 9/30/2013

The Center for Genomics and Society focuses on the Ethical, Legal and Social Implications of Large Sample Gene Discovery and Disclosure. The "'E' in 'ELSI'" project within the Center, which I led, focused on understanding, critically assessing, and offering models for, the methods, aims, and framing of ethics within ELSI research.

Role: Co-Investigator

Principal Investigator: Gail Henderson

CEER Renewal 10/1/2013-9/30/2018

The Center for Genomics and Society is conducting the Gene Screen project by investigating the ELSI questions associated with a public health model of genomic screening for highly deleterious, but medically 'actionable', genetic mutations in the general population.

Role: Co-Investigator

Principal Investigator: Gail Henderson

## *Completed Grants*

### Southeast Regional Center of Excellence for Emerging Infections and

Biodefense (SERCEB) - Policy, Ethics, and Law (PEL) Core

Sponsor: NIH National Institute of Allergy and Infectious Diseases

10/1/2009 - 2/28/2010

9/1/2003 - 8/31/2009

Research, clinical care, and public health interventions related to emerging infections and biodefense raise critically important ethical, legal, and social issues. Advisory Committee members consult with researchers, clinicians, public health and government officials, experts in biosecurity and health policy, epidemiologists, bioethicists, and the senior scientists serving as SERCEB investigators.

Role: Advisory Committee Member

Principal Investigator (PEL Core): Robert Cook-Deegan

### Strengthening Bioethics Capacity and Justice in Health

Sponsor: NIH Fogarty International Center

06/01/04 - 05/31/08

To build bioethical training and research capacity at the Kinshasa School of Public Health, Democratic Republic of Congo through expansion of its partnerships with the University of North Carolina, Chapel Hill and the Catholic University of Louvain, Belgium.

Role: Consultant

Principal Investigator: Frieda Behets

### Center for Excellence on ELSI Research: Large Sample Gene Discovery and Disclosure

Sponsor: NIH National Human Genetics Research Institute

7/1/04 - 6/30/07

Exploratory grant to conduct the planning necessary to create a Center of Excellence on the Ethical, Legal and Social Implications of Large Sample Gene Discovery and Disclosure.

Role: Co-Investigator

Principal Investigator: Don Bailey

## Community Genetics Forum 2006: Group Benefits and Harms of Genetic Research

Sponsor: NIH National Human Genetics Research Institute (NHGRI)

October 2005 - October 2006

Contract to host the Community Genetics Forum 2006 in connection with the Education and Community Involvement Branch of the NHGRI. Contract activities included the continued development, implementation and evaluation of a model Community Genetics Forum through community conversations, ELSI training, and a two-day colloquium on the topic of group benefits and harms related to genetic research. Role: Key Personnel

Principal Investigator: Barbra Rothschild
