Dear Professor Resnik,

I'd very much like to participate in your October 1974 annual colloquium. The last one I attended was fun. I'm working on a paper called "Intending" which I'd like to read. A perfect commentator would be Paul Grice, since my paper was to some extent inspired by one ~~by him~~ of his. If David Pears is to be in the country, he would also be very good.

With best regards,

Yours,

Donald Fisher
