

WOODY ALLEN

Dear Claire -

Thanks for all the interest in me but the whole thing is completely impossible. For one thing I'm all filming & will be full Spring. For another I'm unequal to the task you suggest and never appear anywhere anymore. I stay home, potter around my garden, read, listen to music & chase women. If possible I'd never leave the house much less N.Y. Even my films are written to be shot at home. Thanks again.
